NOTEL | MINIMALISTIC CAPSULE HOTEL EXPERIENCE

THE SMALLEST HOTEL ROOM IN BASEL

HAVING

**A GREAT STAY IN THE MINIMALISTIC HOTEL WITH
AN ATTITUDE**

GETTING INTO THE BUILDING

- To get in you need a the Nuki App installed on your device with 3 Keys: Gate, Canteen and Notel.
- You will receive the invitation to install the app and the keys in advance of your visit.
- With the Gate Electronic key you can open the front gate and inner gate at the same time.
- Proceed through the two metal doors and head straight on to the canteen, it has a nice bronze plaque.
- Unlock the canteen door with the Nuki App.

GETTING EVERYTHING READY

- Once in the Canteen, put your luggage on the floor.
- Relax a bit, drink some water, get into the mood.
- Once you are mentally ready, head for the bathroom. This is the first door to the left when entering the canteen.
- Acquaint yourself with the bathroom, this is the shower and toilet you will use. If it is occupied do not worry we have a second toilet, take the door to the left just before entering the canteen.
- Next to the shower there is an oak cabinet. Open it. Inside grab a tote **B**ag. Take a **T**owel, a pair of **S**lippers, and a sleeping bag **L**iner and stuff them into the tote.
- Now put the minimum number of personal items into the tote
- Side Quest: lock and stow your luggage into our luggage lockers in the cellar, see separate document.

NOTEL EXPERIENCE

- Head up the stairs until you see the Notel sign on a grey door. Yes, it is tough, about 5 stairs to climb - so pace yourself.
- Open the Notel door using the Nuki App.
- Take off your shoes and install them into the shoe space right at the door - it helpfully says “shoes”.
- Please do not stand in the Notel with shoes or take any wet clothing inside. It will damage the Tatami.
- Unpack your tote, get the slippers ready and install the sleeping bag liner.
- Lock the door with the Nuki App if you are in danger of being stolen.
- Put on some relaxing music on the home pod.
- Night, night - sweet dreams.

LEAVING THE NOTEL

- Make sure the windows are closed.
- Please remove all personal items, tote bags, towels, slippers, sleeping bag liner, etc from the Notel.
- Turn off the light.
- Lock the door with the Nuki App.
- Head downstairs.
- In the bath room below the oak cabinet there is a washing bin, please put all the washing stuff into this.
- Any garbage you can put into the bin below the sink.
- Retrieve any baggage you left in the locker.
- Turn off the lights and lock the canteen using the Nuki App.

ETIQUETTE

- Be respectful of the neighbors, do not make noise at night.
- Really, do not take wet stuff on the tatami or walk on it with shoes.
- Do not leave and garbage or “donate” any stuff. Leave no trace is the motto.
- Do not make a nuisance of yourself. Notel is minimal, cheap and comes with no frills or room service.
- If you made a mess, broke something, or broke the internet - please just tell us info@feldberg42.ch - it will go better for you - mostly.

Q&A
